GENERAL INFORMATION

Date and Venue

Guimarães, Centro Cultural Vila Flor, 1st and 2nd July 2010

Technical exhibition

The technical exhibition is dedicated to the following topics:

- Materials for concrete
- Equipment for the assessment of the concrete properties and the behaviour of structural systems
- Execution of structures: design and construction.

Participants

The technical exhibition is open to companies or institutions that are interested in the topics presented, namely owners of structures/infrastructures, design and consulting offices, producers and suppliers of materials and equipment, companies dedicated to construction and rehabilitation of structures.

Timetable

Setup: 30th June, 14h30-17h30

Inauguration: 1st July, 9h00

Closing: 2nd July, 17h30

Disassembly: 2nd July, 17h30-20h00

Exhibition area

The technical exhibition is located next to the Main auditorium and the coffee-breaks.

A maximum of 10 stands are expected with the identification presented below.

The setup of the stand is the sole responsibility of the exhibitors and must comply with the timetable presented.

CONDIÇÕES DE PARTICIPAÇÃO

Registration

The registrations forms for the Technical Exhibition must be sent to the secretariat accompanied by the respective payment.

The Organizing Committee shall inform the exhibitors of the acceptance of their registration and indicate the assigned stand.

Stand choice is performed according to the order of registration arrival and confirmation of the respective payments. If it is not possible to satisfy the original stand choices, a new request is made among the remaining stands.

Fees

The fee for each stand is 1800 € (including VAT) with a free registration for the congress. The stands are 6 m² (3 m × 2 m).

Cancellations

A written cancellation request must be sent to the Organization committee. The refunding of the registration fee is possible only if the request is performed before communication of registration acceptance.

Responsibilities

The Organization committee is responsible for the whole of the exhibition area, including the supply of electricity (standard 220-230V) and stand lettering.

The exhibitor is responsible for any necessary licences and insurances. The exhibitor will be held accountable for any damage their personal has cause on the congress/exhibition venue.
